Complaint

On 1/26/06 I Arrived At Correctional Corporation Of
America-Correctional Treatment Facility. At that time I presented
Staff with a doctors order to be placed on a bottom bunk bed.
I WAS evaluated by doctors And determined that medical problems
prevented me from being placed on a top bunk. CCA Staff ignored
that order and placed me on a top bunk bed. I was kept on that
top bunk for a total of 30 days. Also on 1/26/06 I informed medical
staff of stomach ulcer and medication taking for the problem.
I constantly informed them that I took medication and medical
staff never looked into the matter. I complained of stomach pain
periodically before it was discovered in medical staff computer.
I suffered with stomach pain for a total of 12 days and medication
was prescribed on 2/6/06. On 3/16/06 I ran out of blood pressure
medication I alerted pharmacist technician of no more medication
and for 5 days I had no blood pressure medication to take before
receiving it finally on 3/21/06. On 3/25/06 I was given wrong medication

that is administered to you and watched taking medication. I did realize that I had taken someone else's medication until I started to begin to feel strange from the medication effects. I know that my medication didn't have the effects that I encountered from the medication mistakenly given to me. It has happen on 2 other occasions and I informed pharmacist technician of her errors. These mistakes could have been detrimental to my health. This is a case of a eighth Amendment violation of cruel and unusual punishment and medical negligence. I seek monetary damages in the amount of 1,000.00 per day for 30 days totaling to 30,000 plus 5,000 for pain and suffering. Also monetary damages of 500.00 per day for a total of 12 days totaling 6,000 plus 1,200 for pain and suffering. This is a complaint under 42 U.S.C 1983 constitutional violation. Just because am incarcerated doesn't mean that I am not a human being and I desire to be treated like a human being. I suffer from myasthenia, neurasthenia and R.L.S and a crooked spine. Myasthenia is muscle weakness and neurasthenia is nerve weakness. R.L.S is restless leg syndrome and I suffer lower back pain scoliosis curvature of the spine. Also an additional claim of \$134.97 for lost or stolen Property. I request a jury trial in this matter.
